Champs-elysees

This series includes structures that can be added to using modular extensions.The self-supporting structure has a rectangular layout with arched top and central lighting fixtures. The structure shown here consists of a base module with 4 sides and 2 extensions on antique brass poles. They can be covered with canopies, climbing plants or decorated with Indian drapes, thus transforming them into a pleasant, elegant solution for creating shady areas, walkways and driveways. It comes with all the accessories needed for a simple lawn anchoring, although it can be customized with wood, granite or bricks. The gazebo can be adapted to fit the space available based on a design agreed in advance with the client. Item provided with lighting fixture including bulb.
